A full talent sourcing solution as an engine behind the company's operational efforts

ORGANIZATION

TechFuture Executive Search,
Singapore

TechFuture is an executive search firm exclusively focused on delivering strategic hiring

solutions to companies in the technology sector including Cloud, AI, Big Data, Analytics, CyberSecurity, RPA, FinTech, and applications, etc. With years of specialized experience, access to elite talent, and an in-depth understanding of the business needs, they are able to swiftly and accurately identify the executives and senior talents who will best lead their client teams to make valuable contributions and bolster the bottom-line.

In addition to helping the clients fill their leadership roles time- and cost-efficiently, resulting in rapid ROI, TechFuture's consultative model provides a foundation for continued organizational growth. They tailor their strategy to each unique recruiting challenge, all while maintaining a steady focus on the long-term vision and the most effective ways to make it a reality.

CHALLENGE

TechFuture is a boutique executive search firm. They don't want to divest time in searching for candidate profiles and building the talent pipeline. They prefer the team to focus on more strategic and value-added activities. They required a full talent sourcing solution for their needs.

SOLUTION

For TechFuture, the engagement is all to do with efficiency. vsource services are used in different areas including sourcing profiles and generating sales leads. vsource ended up being the sourcing engine behind the company's operational efforts across Singapore and Malaysia.

RESULTS

Created a strong talent pool (8,000+ profiles) across different jobs in Singapore and Malaysia resulting in several successful placements. Increased operational efficiency in the overall end-to-end process, saving on average 50% of operational time for the client.

"The candidate you sourced has just been offered! It's amazing that it happened within one and a half months' engagement with vsource!"
"This is a tough search given the limited talent pool in Singapore! Bravo!"
"This role has been open for about 6 months before they engaged with us!"
